**FY 67 Forecast - Section 45 scheduling**

25X1A9a

1. [REDACTED] Section 45 Coordinator, by phone today indicated no change in subject forecast.

2. He will be looking into the matter of an FY68 forecast and expects to be prepared to discuss this the latter part of September. I told him we too would be examining the requirements for maintenance and make some suggestions about items for the FY68 forecast. He said he felt that his "little" office could not make decisions on the broad needs of the Community and therefore felt he needed some assistance from us. I assured him we would be looking into the maintenance requirements preparatory to making selections for FY68 forecast.
